OBJECTIVE

Motivated Computer Science Under graduate seeking an entry-level Software Developer role, with a strong foundation in programming, problem-solving, and web technologies. Passionate about building scalable applications, learning modern tech stacks, and applying theoretical knowledge to real-world projects. Eager to contribute to a dynamic development team while continuously improving technical and professional skills.

EDUCATION

SASTRA UNIVERSITY, Thanjavur	2023-2027
B.Tech. in Computer Science and Engineering	CGPA: 8.3
Vidhya Bharathi Junior College	2021-2023
Senior Secondary (XII)	Percentage:99.1
Talent EM school	2020-2021
Secondary(X)	GPA:10/10

TECHNICAL SKILLS

Languages	C++,Python
Web Development	HTML, CSS, JavaScript, ReactJS
Database	MySQL
Tools	Git, GitHub, Postman, VS Code
Soft Skills	Creative Thinking, Communication, Team Collaboration

PROJECTS

Diabetes Prediction System | Python, Scikit-learn, Pandas | GitHub

- Built an ML model to predict diabetes risk by comparing multiple classification algorithms.
- Performed data preprocessing and feature engineering to identify the best performing model.

Employee Management System | React, Node.js, MongoDB | GitHub

- Developed a full stack web app to manage employee records, attendance, and payroll.
- Built RESTful APIs with Node.js and dynamic UI using React with MongoDB integration.

CERTIFICATIONS

- Certification in Networking and Web Technology -Infosys Springboard
- Certification in Introduction to Artificial Intelligence - Simplilearn
